LETLHABILE INTERNATIONAL PRIMARY SCHOOL

Issue 9 (Term 3, 2022)

Dear Parents/Guardians,

As the school year comes to an end, I would like to take this opportunity to wish you and all our children all the very best for the holidays. May it be a safe, relaxing, and enjoyable one.

We are all very proud of our children and would like to congratulate them on the hard work and effort that they have put into completing another successful school year. Academic success is important but we also recognise the value of the many character-building opportunities we offer to ensure that the talents and interests of our children are also developed and supported.

We would like to wish those who are leaving us all the very best for their future endeavours. We hope that you will fondly look back at your time here at Letlhabile.

On a personal note, I would like to thank you all for welcoming me to the Letlhabile family and for all the support and encouragement that you have forwarded me during my first year here. I very much appreciate it.

Next year, we look forward to moving into an innovative and child-centric system of the teaching-learning process. Staff is already busy planning for the new academic year. We will keep you updated on all school events and developments via the school website and social media.

I look forward to welcoming you all back on Tuesday, 10th January 2023 to begin another school year full of educational activities and learning opportunities.

Wishing you a Merry Christmas and a blessed New Year.

Mrs. S. Vincent
Acting Principal

Yellow Colour Day

Yellow Colour Day was celebrated by Reception on 28 October 2022. Our reception classes were blooming with happy sunflowers that were smiling, laughing, and enjoying the fun-filled activities organized for the day. Our Standard 1s and 2s also joined in to celebrate the colour yellow. The day was a success and we want to thank our parents and guardians for your continuous support.

Science Exhibition

The school Science Exhibition was held on 3rd November 2022. It was an extraordinary day for our budding scientists as they got the opportunity to share their love for the subject with their peers. A wide variety of scientific topics were on exhibition including; waste management, food groups, wind vane operation, recycling, effects of pollution, human body systems, and electromagnetics. Children performed and explained experiments that explored different scientific theories. The day was thoroughly enjoyed by all our children from Reception to Standard 6. Our aim is to continue providing the necessary educational support to make our children's dreams come true.

2023 School Fees

We thank all the parents who have completed their payment of the school fees for Term 3. Kindly note that three payment options are available to parents for school fee payments. Please note that only one of these 3 options will be accepted for school fee payment. The school will only be able to fulfil its mandate of imparting seamless education if school fees are received on time. Kindly contact the Bursar's office if you may require any further clarification.
